RE: Reinspection Fees

Dear: Customer

Effective April 15, 2001, the Clark County Building Division will be enforcing the Uniform Building Code Section 108.8, concerning re-inspection fees. Listed below are some of the reasons you may be cited and assessed the re-inspection fee:

- **No building inspection card posted**
- **No building plans posted**
- **No building address posted at site**
- **Previous corrections have not been completed**

We hope this action will better serve our customers that do a great job of always having their work done and their building site ready before they call in and request an inspection.

Thank you for your cooperation.

Sincerely,

**Lou Adams
Chief Building Official**
